

Sushi Conveyor Options

Overhead Lighting Type SC85-LIG-031

- Our overhead lighting system is fitted directly to the conveyor and is a very practical and economical solution.
- Styled to match the conveyor the lighting housing is satin finish stainless steel.
- Sizes available 100mm high x 150mm, 200mm, 300mm and 400mm wide.
- Supports satin finish stainless steel.
- Like the conveyor, it is modular in construction so can be easily modified or extended.
- All wiring is hidden from view, installed inside the housing and supports.
- We can fit many different types of lights: Halogen or low energy spotlights, pendant lights to suit your décor.
- Can also be supplied with a highly polished finish at extra cost.
