

MONK

The Food Delivery Robot

The Robot that travels around your restaurant and delivers food to each table at the touch of a button

- Add a new dining experience to your restaurant.
- Reduces staff levels
- Easily installed into any restaurant, the Robot and track does not require any electrical cables, just simply magnets.
- The track is as wide as this page.

Come and see what it's all about on Stand 2072

We will also be displaying our AUTECH sushi machines
